Five reasons to work with us

1. A warm welcome from our friendly, experienced team who will make it easy for you
2. Our 'Future First' Charter means we're prioritising the planet, by simply choosing us you can help make a difference too
3. Great food choices. 80% of ingredients are British grown, our menus are plant-forward and we have a focus on only seasonal fruit and vegetables.
4. To ensure guests maintain balanced energy levels throughout the day, they'll always find a great selection of refreshments, ethically sourced hot beverages and hydration stations in our private and communal spaces.
5. Our bedrooms are fully equipped with all the amenities guests might need including free Wi-Fi. We're confident your guests will have a great sleep, waking up feeling refreshed and ready to go.

Future First Charter: Sustainability Framework

Our Future First Charter is a framework to deliver our social purpose and Compass Group in its race to be Net Zero.

PEOPLE PLEDGE

We believe in inclusive working environments, where everyone can feel welcome and equally represented no matter what area of our business they work in. We listen to our guest feedback and want to make their visits as enjoyable as possible.

FOOD FOCUS

Food is at the heart of everything we do. From careful consideration of our supply chain through to the diner experience; each aspect supports eating better for the environment, our health, animal welfare and social enterprises. Our recently launched 'Meetings for Change' package allows our venues to be eco-conscious when creating menus for customers.

ENRICHING ENVIRONMENTS

These commitments benefit everyone; for our employees, an enriching place to work; for our guests, flexible, sustainable spaces to meet, sleep and celebrate; for our planet, considered actions and activities to support the wellbeing and future of the planet.

Meetings for Change

We've rolled out 'Meetings for Change' across the catering at the meetings, conferences and events we host: 80% of ingredients are to be British grown, our menus are plant-forward, with a focus on only seasonal fruit and vegetables.

We believe in zero waste and we're working with responsible and fair-trade suppliers in line with our climate promise.

Our efforts in creating a sustainable food system to help reverse climate change is part of our commitment to support our parent company, Compass Group UK & Ireland to reach net zero by 2030.

Great things happen when people get together in our spaces to meet, spaces to sleep and spaces to celebrate. From large scale conferences, small meetings, training, team building and every business event in between our venues provide an informal atmosphere where you and your guests can be yourself.

We combine our spaces with a name you can trust. The Venues Collection is part of Compass Group, the market leader in contract catering services.

GREEN ACCREDITED

We work hard to meet the standards set out by many industry bodies, including Green Tourism & Green Meetings - the world's largest sustainable certification programme.

We're delighted to say all of our venues have achieved their silver award but continue to progress on their green journey to a gold award.

This accreditation covers waste management, recycling, energy, water conservation and much more.
